Data, government and AI: challenges and risks

Giovanni Allegretti
University of Coimbra

Craft DASTU
Politecnico di Milano
Campus Leonardo - Ed. 11B
via Ampere, 20 - Milano

Giovanni Allegretti (University of Coimbra) explores the role of data and artificial intelligence in shaping public policies and urban governance. The lecture reflects on risks, opportunities and democratic implications, with a focus on participation and knowledge co-production.

Discussants: Michelangelo Secchi, Grazia Concilio (DASTU, Politecnico di Milano)
