# **Adriatic Policy Dialogue #2: Coastal planning and land-sea interactions in the Adriatic Region**

Craft DASTU  
Politecnico di Milano  
Campus Leonardo - Edif. 11B  
Via Ampère, 20

The event brings students into dialogue with planning officers to explore the role of planning in advancing the socio-ecological transition in the Adriatic region, reflecting on the coastal areas of Montenegro as a case study.

The event is free to attend.
